Systems, Inc.

To: SGCC Certification Program Participants, Testing Laboratories, Program Auditors

From: Administrative Management Systems, Inc. (AMS)

Date: August 31, 2026

Subject: Publication Notification of ANSI Z97.1-2026

We would like to inform you that the ASC Z97 Committee has published the updated **ANSI Z97.1-2026, Safety Glazing Materials Used in Buildings – Safety Performance Specifications and Methods of Test.**

The SGCC Certification Program is currently evaluating **ANSI Z97.1-2026** to determine whether revisions to the standard will result in changes to SGCC certification requirements, testing procedures, or labeling requirements.

At this time, no action is required from SGCC participants. The current SGCC certification requirements remain in effect until further notice.

Please **do not make any changes to your SGCC permanent labels**, including updating references from ANSI Z97.1-2015(R2020) to ANSI Z97.1-2026, until SGCC has formally communicated the standard's adoption into the certification program and provided the applicable implementation timeline.

SGCC will provide additional information regarding the adoption of ANSI Z97.1-2026, including any resulting changes to certification requirements, testing, labeling, and implementation dates once the evaluation and adoption process has been completed.

Thank you for your participation and if you have any questions, please do not hesitate to contact us directly at SGCC@amscert.com.

Kristin Best
